ODFREY PATTISON & CO., NEW YORK,
I take leave to inform their friends and the public, that they have taken up the Importing Business on their own account. For the future they will confine themselves strictly to the Commission Business, for the purchase of dry goods, in Glasgow, Scotland.

From their long experience in the trade, they feel confident that they can promote the interest of those engaged in the importation of dry goods, and they respectfully solicit orders, which shall have their best attention.

The name of the firm in Glasgow is changed to GODFREY PATTISON & Co.

The New York firm being dissolved, they will be pleased to receive orders through their agent, James Pattison, No. 31 Pine street, New York.

WILMINGTON BOARDING SCHOOL
FOR 26078—This institution is stuated in
one of the healthest parts of the city of Wilmington, entirely beyond the sentled portions of the town. The uniform healthfulness of the location may be inferred from
the fact that, since the establishment of the School, about
tweatly eight years, very few cases of scrious indisposition
have occurred among the purifs and not a single death
either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary
English branches, Natural Philosophy, Chemistry, Physiclory, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and
their application to Mechanics and Engineering; the latter
and Surveying are taught practically by field operations,
with the use of appropriate instruments. Lectures on
Natural Philosophy and Chemistry, in which all the important principles are iffustrated by experiments, are
regularly delivered before the students.

As the object is to make the instruction as thorough
and practical as possible, no expense has been spared in
providing suitable apparatus. It is believed that, in this
respect, the Institution will compare favorably with any
similar one in the country. A carefully selected library,
of more than one thousand volumes, containing works on
the various branches of Liberature and Science, furnishes
ample reading matter; while a Laboratory, fully supplied
with apparatus and tests, contains all that is necessary for
practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day
(Monday) of the Ninth month, (September, Jand is divided
into four quarters of eleven weeks each, leaving a vacation
of two months, from about the middle of the Seventh
month (July).

SAMUEL ALSOP,
Principal, Wilmington, Del.

mar 24—

MORE HOME EVIDENCE.

THE TESTIMONY OF ONE OF OUR LAWYERS.—

IM. JAS. L. HAMILTON.—DEAR SIE: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it, such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have witnessed from its employment in the cases of several ricends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very aggravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impaired appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The case of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved effleacious, after the triat of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.

J. HOWARD GRIFFITH,

Marshall Bufidings,

Baltimore, Aug. 24th, 1850.

Baltimore, Md. MORE HOME EVIDENCE.

WE invite the attention of the Profession, and others desiring Law Books, to our very extensive stock, which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports, English Common Law Reports,
58 Folumes, with a complete Index to the first 47 Volumes.
Since volume 30 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, in
stead of, as formerly, two English in one American volume
Price—For the first 48 vols., \$3 50 per vol.

The reputation which these Reports maintain in England and in the United States is known to all the Profes
sion. The low price at which they are offered, compare
with the rates of some of the principal American Reports
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Enlish Common Law Reports.

By Hon, George Sharswood and George W. Biddies, 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Communication of the Profession a mass of leg

To be reprinted in full, in best style, with American Notes, by J. I. Clark Harr and H. B. Wallace, Esqrs, at \$2 50 per vol., bound.
Including McClelland and Younge, Younge and Jervis, Crompton and Jervis, Crompton and Messon, Crompton and Messon, and Roscoe, Messon and Younge and Collyer—in Equity.

Messon and Walsby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery.

We take pleasure in referring to the acco-letters, explanatory of the character of these Re-their value to the Profession in this country:

Cameringe, January 20, 1000.

Messrs. T. & J. W. Johnson:
Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I searcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

Cambridge, Joseph Story.

Cambridge, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours, SIMON GREENLEAF.

ssrs. T. & J. W. Johnson. Law Library.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.
The cheapest Law Periodical in the United States.
It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal-Maxima, Archboid's Nisi Prius, Archboid's Landlord and Tepant, Crabb on Real Proporty, Smith on Contracts.
The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

Leading Cases in Law and Equity. In Three Series-With American Notes.

In Three Series—With American Notes.

1. White and Tudor's Leading Cases in Equity, I vol. 8vo. \$4 50; with copious and elaborate American Notes, by Mossrs. Hare & Wallace.

2. Smith's Leading Cases, 2 vols.—\$10.

Thir: American Edition—with Notes and References to late & glish and American Decisions, J. I. Clark Hare and H. B. 'fallace, Esqrs.

3. A nerican Leading Cases, 2 vols.

Containing voluminous and learned notes to the Leading Cases in Mercantile Law decided by the American Courts. Edited by John Innis Clark Hare, Esq., and Horace Binney Wallace, Esq.—\$9.

The English Ecclesiastical Reports.

The English Ecclesiastical Reports.

Seen Volumes—324 50.

Furnish a series of Decisions in the Ecclesiastical Courts of England and Scotland, from 1790 to 1838, and contain seventeen English volumes condensed in seven.

"We respectfully commend this series to the notice of the Profession. It contains the only reports of the many important cases of Wills, Settlements, Divorces, &c., and covers the whole of that important branch of the law embraced in this country by the Orphans' Court Practice.

"It would be difficult to point to any English Reports of more general value in the United States, than this selection of Decisions."—Marvin's Legal Bibliography.

British Crown Cases Reversed.

British Crown Cases Reversed.

Three Volumes—\$9.

From 1794 to 1840—To be continued.

The Decisions upon the Crown Cases reversed for the consideration of the Twelve Judges of England, are of the first importance to the due administration of the criminal fustice of the country; and in committing to the press those which have occurred during a recent period of more than forty years, the publishers believe that they are making an acceptable communication to the Profession and the public.

The three volumes already published contain all the Reversed Cases since Leach.

III. The Constitution of the United States; Astronomy, finished; The Science of Heat; Thermo-Electricity; Chemistry and Geology.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and partly in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close o

of a Committee of the Trustees; and their attainments are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship, is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Restament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Mothodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

ADMISSION.

In order to admission to pursue the entire course, a student must be at least fourteen years of age; must give satisfactory evidence of good moral character; and must sustain an examination in the following studies, viz:

Arithmetic, Elements of Algebra, Latin and Greek Grammar, Jacob's or Felton's Greek Reader, and the first two books of Xenophon's Anabasis, Jacob's or Dering's Latin Reader, Sallust or Cæsar, Cicero's Select Orations, and Virgil, or what shall be deemed equivalent.

EXPENSES.

ENTRANCE FEE.—If the student enter as Freshman, five dollars; if as Sophomore, ten dollars; if as Junior, fifteen dollars; and if as Senior, twenty dollars.

Board is furnished with the families of the Professors

Board is furnished with the families of the Professors at two dollars per week.

Washing, at the usual rates.
All dues are psyable in advance. The tuition is remitted, on application, to all students designed for the Ministry.

The tuition fee for Modern Languages will be eight dollars per session, to be paid to the Instructor in advance.

For students who do not design to prosecute the whole Course required for a degree, a more limited range of studies is furnished, adapted to the sphere and course of life of each individual, so far as such can be reasonably anticipated.

The studies of this Course are arranged under the following departments, to wit:

1st. A MATHEMATICAL DEPARTMENT—In which, beginning with Arithmetic and Algebra, the student will be carried, scriation, through all the higher branches of the Mathematics, ending in their application to Natural Philosophy, Astronomy, &c.

2d. An Enguise Department—Comprising instruction in Orthography, Reading, Elecution, Gremmar, Writing, Geography, History, Composition, Rhetoric, Logic, Intellectual Philosophy, Moral Philosophy, Political Grammar, Story on the Constitution, Philosophy, Ornithology, Natural Theology, Elements of Criticism, and Evidences of Christianity.

Christianity.

3d. A. Mercantile Department—In which will be imported an acquaintance with all that is necessary to qual-

mening. Architecture, Perspective, Draughting, and Topography.

6th. A Tracker's Department—The course of study will consist of a judicious selection of subjects from the other departments, including all the branches pursued in our common school. Practical hectures will also be given on School Teaching, both as a science and as an art.

Pupils will not only thus receive the fullest instruction relative to the best and most popular methods of teaching, but they will also have opportunities of exemplifying them, by hearing recitations in the lower departments of the Institution.

7th. A Department of Modern Languages—In which students who wish to take a thorough course can have an opportunity of doing so; while others, whose object may be to acquire sufficient knowledge to translate with facility, and to pronounce with tolerable correctness, in as short a time as possible, are also provided for.

Newark Academy.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study rooms and dormitories has been chosen with peculiar reference to confort and convenience for study; and necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this Rind. Those who wish to pursue some particular branch which fails more properly within the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College lasses. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College lasses. The sessions also may be had to the Lectures, and such other privileges of the College as can be profitably enjoyed by academiesi students.

The charge for Boarding, Washi

BALTIMORE PIAMO FORTE MANUFACTORY.

ELASTIC UNIVERSAL TOUGH.

WISE & BROTHER, Manufacturers of Boudor, Orind, and Square Flance, and Quest those who would be assured of a basic class Piamo, that ladies can perform on with the createst possible udvantage—one that the touch can be instantly adjusted to the exact strength of the fingers and movement of music, one that will stand in concert tune, one that the touch can be be not stand to the same and movement of music, one that will stand in concert tune, one that the touch can be legantly made up of straight and regular curve lines, that will last an age—to dive them a call. The ancient standing of the Baltimore factory, and liberal patronage of citizens and others of the first order of artistic taste and science, conceded at once the most critical, have been fully unitcipated. Their recently finished Grand Piamo, minutely reviewed by the most accomplished civil engineers and master artists, has been decombinated truly a Grand Piamo; also, that their late Boudoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. Friends and customers, please stop in and examine for yourselves.

No. 31 Hanover street, Baltimore.

* Elastic, because the keys recover their quiescent place in time equal to the displacing. Universal, because the same instrument may be instantly altered to any degree hard, or soft touch, so that ten thousand or more performers, all different, may each find the touch they prefer.

COLD SPRING WATER CURE.

for.

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuser runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and unseries of the Mesers, Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracking points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorann of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated (Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently crected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable active expense, and is sufficiently capacious to accommodate reventy-five patients.

Gonnected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnistic exercises.

MEDICAL DEPARTMENT.

The institution is under the general supervision of Sections.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis M. D., formerly of Dansville, N. Y., the resident physician and is permiamently associated with the before mentione continuous as a counsel, and associate of the medical boar

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while infolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, allke by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably efficacious mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great truths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.

tion of patients, and in full operation.

TERMS.

For board, medical advice, attendance and nursing, &c., from \$7 to \$14 per week, payable weekly, varying according to the room and attention required. Each patient twill be required to furnish two linen sheets, two cotton comforters, one weellen blanket, and four towels; or, where it is not convenient for the patient to furnish them as above, they can be supplied at the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to S. M. Davis, M. D., or to George W. Davis, M. D., 239 Main street, Buffalo, N. Y.

S. M. & G. W. DAVIS & Co., Buffalo.

HUNT'S MERCHANTS' MAGAZINE AND COMMERCIAL REVIEW.

THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been charged since its commencement in July, 1839, and each volume now contains more than seven hundred large co-tave pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

parted an acquaintance with all that is necessary to qualify youth for the immediate duties of the counting-house, including—

1. Pounaenship—By an original and popular system of this art, which invariably produces a bold, finished hand, peculiarly adapted to the purposes of the accountant and business man.

2. Arithmetic—Comprising numerous abbreviated methods of computing Interest, Discount, Equation of Payments, &c., and other mercantile calculations founded on per centage; together with all such operations as are requisite for a thorough knowledge of the business of the counting-room.

3. Bed by Mill per volume.

The following are a few of the many commendatory ters received by the editor of the Merchants Maga from distinguished statesmen:

Letter from the Hon. Henry Clay.

Letter from the Hon. Thomas H. Benton.

Washington City, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercanile character requires. Nor is its utility at all confined to merchants, but extends to the legicalor and diplomatiat, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to mu in my sematorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant,

THOMAS H. BENTON. Letter from the Hon. Thomas H. Benton.

Letter from Hon. Wm. H. Seward. My Dear Sir: Have the goodness to place my name on your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

I am, with great respect, your humble servant,
Freeman Hunt, esq. WILLIAM H, SEWARD.

Austin's Magie Freezer, Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented Sep-

Through in six minutes. For the preparation of Loc Creams, Water Lees, &c.—Patented September 19, 1848:

THE distinguising merits of this Apparatus are—
Ist. The astenishing rapidity of the process, surpassing belief—hence the name.
2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

2d. It does not requires a tenth part of the labor that the common Freeze does.

4th. It does its work better, producing a better article, in every respect, than by any other mode.

5th. There is a considerable saving in ice, as the tub needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Gream in Austin's Magic Freezor, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

II. F. JACKSON,

Eutaw House, Raltimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Patent lee Cream Freezer of the largest size, (10 gallons,) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality loc Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

Raltimore, April 0, 1851."
